QUESTIONS AND ANSWERS

CHAPTER:-2

FREEDOM

1. Question

What is natural liberty?

Answer:

Natural liberty refers to a man to be born free. With the advancement of civilisation, men formed the state or society himself and sacrificed his freedom. In his free state or natural liberty man was very happy and satisfied. But state binds him everywhere on chain.

2. Question

What is a legal liberty?

Answer:

Legal liberty or freedom refers to framing of one's own constitution by any country to run their administrative system as per their own will.

3. Question

What is freedom of speech and expression?

Answer:

Freedom of speech and expression gives the right to express one's own ideas by speaking or writing. But the freedom is subject to the following limitations:

- Defamation of any citizen
- Security of state
- Contempt of court
- Friendly relations with foreign countries.

4.Question

How can we argue in favour of positive freedom?

Answer:

- Positive freedom refers to the absence of unjust and oppressive restraints.
- To provide equal opportunities to all for self-development in a full potential.

5.Question

What is the value of freedom for human progress?

Answer:

Every individual is free to act to the extent that one's activities do not curtail the freedom of others. Some restraints are put on freedom to limit one's activities to avoid any type of harm to anybody or state or society, whichever is considered essential.

6.Question

What are the two aspects of positive liberty?

Answer:

- Adequate measures are supposed to be given for the freedom of citizens.
- No conflict should be arisen between the individual and society.
