C.C.A.

We are suffering a lot these days due to our irresponsible behaviour towards men and nature. We must practise this dictum in our life--- “ Man and Nature are two inseparable aspects of a single whole.” The present grim situation that has forced us to repent over our irreparable past, is the outcome of indiscriminate exploitation of natural resource. To bring the glorious ancient past it is essential to set up a balance in nature. Write an article on “How to make our Earth a safe place for survival.”
