CHAPTER-13, PLANTS AROUND US

- Plants are living things.
- There are different kinds of plants.
- These are trees, herbs, shrubs, climbers and creepers
- Trees- Plants that are big and tall are called trees.
- Herbs- Short plants with soft , green stems are called herbs.
- Shrubs- Shrubs are the plants that are taller than herbs and shorter than trees.
- Climbers- Some plants cannot stand straight and need some support to climb. They are called climbers.
- Creepers- Some plants creep on the ground. They are called creepers.

Homework-Write and Remember.
