CLASS-1

SUBJECT-MATHEMATICS

DATE-07-10-2020

BASED ON N.C.E.R.T. PATTERN

Good morning dear students,

Today we will learn -Breaking up Tens
into Ones

1. Carry 1 tens =10ones to one's place.

2. In tens place we are left with 2tens .

3. In one's place we have one ten +6ones.

Or 10 ones +6 ones

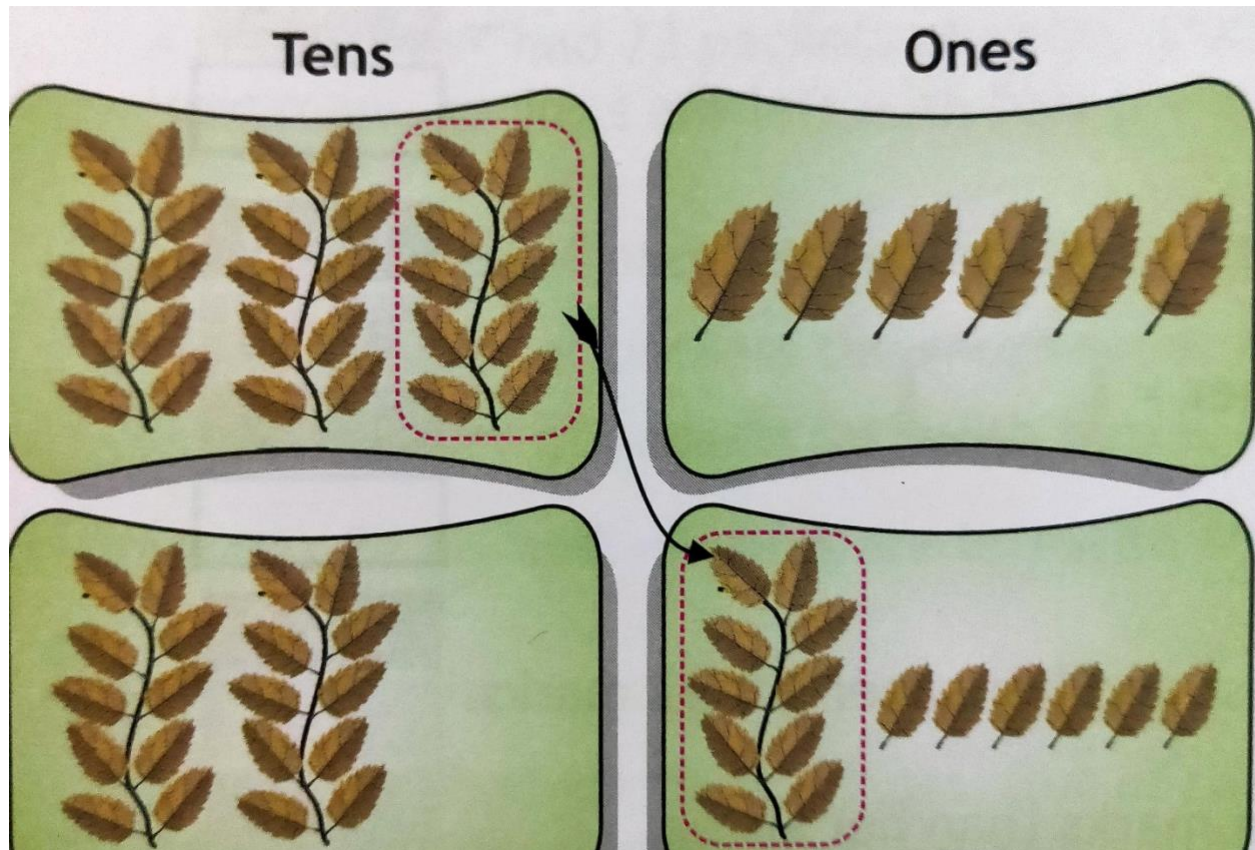

Or 16 ones.

So,36=3tens +06 ones

Or =2 tens +1 tens +6ones

Or =2tens +10ones +6ones

=2 tens +16ones

Homework- Write it clearly with explanation shown above in your copy.
