Number in expanded form

5 tens and 3 ones make 53.

In expanded form, we write :

$53 = 5 \text{ tens} + 3 \text{ ones} .$

Now, 5 tens = 50 and 3 ones = 3.

So, 53 may also be written as :  $53 = 50 + 3 .$

1. Write each numeral in expanded form:

$64 = \text{ — } \text{tens} + \text{ — } \text{ones} = \text{ — } + \text{ — }$

$$91 = \text{---} \text{ tens} + \text{---} \text{ ones} = \text{---} + \text{---}$$

$$83 = \text{---} \text{ tens} + \text{---} \text{ ones} = \text{---} + \text{---}$$

$$35 = \text{---} \text{ tens} + \text{---} \text{ ones} = \text{---} + \text{---}$$

$$78 = \text{---} \text{ tens} + \text{---} \text{ ones} = \text{---} + \text{---}$$

$$96 = \text{---} \text{ tens} + \text{---} \text{ ones} = \text{---} + \text{---}$$

$$27 = \text{---} \text{ tens} + \text{---} \text{ ones} = \text{---} + \text{---}$$

$$100 = \text{---} \text{ tens} + \text{---} \text{ ones} = \text{---} + \text{---}$$

$$56 = \text{---} \text{ tens} + \text{---} \text{ ones} = \text{---} + \text{---}$$

$$46 = \text{---} \text{ tens} + \text{---} \text{ ones} = \text{---} + \text{---}$$
