CHAPTER-13 PLANTS around us

Points to remember-

- There are different types of plants, they are-
 1. Trees- Plants that are big and tall are called trees.
 2. Herbs- Short plants with soft green stems are called herbs.
 3. Shrubs- Shrubs are the plants that are taller than herbs and shorter than trees.
 4. Climbers-Some plants cannot stand straight and need support to climb . They are called climbers.
 5. Creepers- Some plants creep on the ground. They are called creepers.

Homework-Write and Remember.
