CHAPTER-6 – DIVISION

Divide-

1. $24 \div 6$

2. $15 \div 5$

3. $8 \div 2$

There are 12 books. Arrange them equally in 3 shelves.

i.	Total number of books	12
ii.	Total number of shelves	3
iii.	The repeated subtraction fact	$12 - 3 = 9, 9 - 3 = 6, 6 - 3, 3 - 3 = 0$
iv.	Division fact	$12 \div 3 = 4$
v.	Number of books in each it shelves.	4

- We have to arrange 12 books equally in 3 shelves.
- Look at the table carefully.

Homework-Solve the division and try to solve table no. -1 with yourself .
