

VIDYA BHAWAN BALIKA VIDYAPEETH

CLASS-2 SUBJECT-MATHEMATICS

DATE-08-10-2020

BASED ON NCERT PATTERN-

Yesterday we had seen how to arrange 12 books equally in 3 shelves.

There are 20 eggs. Arrange them equally in 4 trays.

i.	Total number of eggs	<input type="text"/>
ii.	Total number of trays	<input type="text"/>
iii.	The repeated subtraction fact	<input type="text"/>
iv.	Division fact	<input type="text"/>
v.	Number of eggs in each it tray.	<input type="text"/>

Today you have to arrange 20 eggs equally in 4 trays.

- Division as reverse of multiplication-

Divide 24 by 6

$$6 \times 1 = 6$$

$$6 \times 2 = 12$$

$$6 \times 3 = 18$$

$$6 \times 4 = 24$$

(This means that there are 4sixes in 24)

Therefore, $24 \div 6 = 4$

Homework-Solve the table.
