

VIDYA BHAWAN BALIKA VIDYAPEETH

CLASS-2 SUBJECT-MATHEMATICS

DATE-12-10-2020

PAGE NO.-108

BASED ON NCERT PATTERN-

- PROPERTIES OF DIVISION-

1. Division of a number by 1

Example-

Alok has 8 chocolates and there is no one to share with Alok . How many chocolates will Alok get?

$$8 \div 1 = 8$$

Alok will get 8 chocolates .

Note- Any number divided by 1 gives the same number.

2. Division of a number by the same number.

Example-

Anshu have 3 apples and he wants to share 3 apples amongst his 3 friends. How many apples will 3 of his friends get?

$$3 \div 3 = 1$$

The three of his friends will get 1 apple each.

Note- Any number divided by itself gives 1.

3. Division of a number by 10.

30 divided by 10

$$30 \div 10$$

By repeated Subtraction.

$$30 - 10 - 10 - 10 = 0$$

Homework-Write and learn.
