

VIDYA BHAWAN BALIKA VIDYAPEETH, LAKHISARAI

CLASS-2

SUBJECT-ENVIRONMENTAL STUDIES

DATE-25-11-2021

BY-KIRTI KUMARI

**\*BASED ON NCERT PATTERN\***

Chapter-18, Earth

Points to learn:-

**Air:-**

**Moving air is known as wind.**

**A gentle wind is known as a breeze.**

**When the wind is strong and blowing very fast, it is known as a storm.**

**A very strong wind is also known as a gale.**

**Air pollution:-**

**The contamination of air is called air pollution.**

**These are some things you can do to prevent air pollution and keep the air clean:-**

- 1. Plant trees to keep the air fresh and clean.**
- 2. If you are going to a place close by, ride a bicycle instead of riding a car.**
- 3. During Diwali, decorate your house with diyas instead of bursting harmful firecrackers.**

**Practice:-**

**1. Fill in the blanks to complete the sentences.**

- a. High hills are known as mountains.
- b. Moving air is known as wind.
- c. Land covers one-fourth of the Earth's surface.
- d. Valleys are the lowlands between mountains.
- e. Ponds, lakes and rivers are the sources of surface water.
- f. Rivers flow into seas and oceans.
