## Chapter-16

### Animals

3. Answer the following questions.

a. What are carnivores? Give two examples.

Answer:- Carnivores are those animals that kill other animals and eat them. Example:- lions and tigers.

b. How are cows and buffaloes useful to us?

Answer:- We get milk from cows and buffaloes.

c. How are vultures different from other birds?

Answer:- Vultures are scavengers. And scavengers eat the remains of dead animals.

d. Ravi was asked to make four groups with three animals which are useful to animals in similar ways. But he made one mistake. Select option with the mistake.

1. Donkey , camel, horse

2. Cow, goat , buffalo

3. Hen, duck, goose

4. Elephant, mule, crocodile

e. Select the option that correctly fills the blank in the given statement.

Moo ,moo , where are you?

Come to me I will

Give tasty milk to you.
