CLASS-3

SUBJECT-ENVIRONMENTAL STUDIES

DATE-12-05-2021

BY-KIRTI KUMARI

BASED ON NCERT PATTERN

Chapter-2 , The Earth, Our Home

B. Write True or False.

1. Earth has more water than land. - True

2. Large maps hung on walls are called wall maps. – True

3. The needle of a compass always points to the North . – True

4. Earth has five Continents and Seven oceans. – False

C. Answer these questions.

1. Why does life exist on Earth?

→ Life on Earth exists because it has air, water and the right temperature.

2. What is a map? How is it more useful than globe?

→ A map is a drawing of the Earth or a part of it. It is more useful than globe because it is easier to carry from one place to another place.

3. What are Continents ? Write the names of the seven Continents.

→ Large areas of land are called Continents. The names of the seven Continents are :

Asia , Africa , North America, South America, Europe, Australia, and Antarctica

4. What is the difference between Horizon and coast?

→ The place where the sky and the land meet is called the Horizon . While the place where the land and the sea meet is called the coast.

Homework-Write it clearly in your notebook and remember it.
