Chapter-2, The Earth, Our Home

Revision

Page number:- 18

C. Answer these questions.

1. Why does life exist in Earth?

Answer:- Life exists on Earth because of the air, water and right temperature.

2. What is a map? How is it more useful than a globe?

Answer:- A map is a drawing of the Earth or a part of it. It is more useful than a globe because of the following reasons:-

It is not possible to show all the places on a small globe .

And a huge globe will be difficult to carry .

3. What are continents ? Write the names of the seven continents.

Answer:- Large areas of land are called continents. There are seven continents:- Asia , Africa , North America, Europe , Australia, and Antarctica.

4. What is the difference between horizon and coast?

Answer:- The place where the land and the sky appear to meet is called the horizon.

The place where the land and the sea meet is called the coast.

Homework-Write and Remember.
