CHAPTER-1

LIVING AND NON- LIVING THINGS.....

Quick look

- **We see many things around us.**
- **Things around us can be natural or man-made.**
- **All living things are natural.**
- **Non- living things can be either natural or man-made.**
- **Living things differ from non-living things in many ways.**
- **Living things move, need food, water, and air to grow, feel breathe, reproduce and excrete.**

Word bank

Natural: made by nature

Reproduce: ability to produce young ones

Chlorophyll: a green substance in leaves

Excrete: to throw waste out from the body
