CHAPTER 2. TEETH

Dear students ,
some important facts to Remember :

- Teeth help in biting chewing and digesting the food .
- Milk teeth appear at the age of six months .
- Teeth are of four kinds example : incisor , canine, premolar and molar .
- Crown and root are the two parts of a tooth .
- Tooth decay results in bad breath , cavities ,toothache , bleeding of gums and indigestion .
- Calcium and foods rich in vitamin C are good for our teeth .
