Class 4

Lesson :6 E Division

Dear students

In previous class you solve Division by 2 digit number and verified. Today you will get knowledge of Division by 3 digit number.

Process is same as process of 2 digit number division.

NAME: C1985-IV EXPT. Your Lesson- 6 (E) Division Solvier Division by 3- Digit Number-9 121 Ex- Divide 43877 by 315 42 23182 -> 315) 43877 (1391) 131 3151 151 13181 1237 94.5 PA 26139 1 120 27 × 29 28 35 6 17.7 00100 × × 92 02025 verification :-PON Md 10 PINSE Dividend: Buotient × Divigor + Remainder => 139 + 92 X 315 => 43785 + 92 > + Hold of of lotion => 43877 So, the Division is correct.
