

VIDYABHAWAN BALIKA VIDYAPITH

Shakti utthan Ashram , LAKHISARAI : 811311

Class : 4th A & B

subject : Social science

Date : 09.09.21 (SAT)

sub Techer : Naina paswan

Based on N.C.E.R.T pattern

CHAPTER : 13 OUR MINERALS RESOURCES

Today Chapter 14 - OUR MINERALS

RESOURCES was read by the

children, tomorrow it will be

explained well one by one,

1.what are the types of minerals,

2. what are the metallic minerals,

3. what are non,- metallic minerals

**and apart from all its parts and text,
he will be asked to
question. will be sent
too.**

Quick recap

- Minerals are natural substances found in rocks. They are divided into metallic and non-metallic minerals.
- Metallic minerals are those from which we get metals. Iron, copper, manganese, bauxite and gold are some metallic minerals.
- We do not get metals from non-metallic minerals. Limestone, precious stones, salt, coal and petroleum are some non-metallic minerals.
- Coal and petroleum are used as fuels. Hence, they are called mineral fuels or fossil fuels.
- Jharkhand, Odisha and Chhattisgarh are rich in minerals.

try to memorize the given lines.
