*** TEETH ***

A. Answer these questions .

1. How are teeth useful to us ?

Answer = They help us in speaking clearly.

And the most important function of the teeth is to chew the food that we eat .

Teeth break the food into smaller pieces and help in the digestion of the food .

2. Different between temporary and permanent teeth .

Answer =

Temporary teeth

When the baby is around six months,

The first set of teeth.

Permanent teeth

Around the age of six years milk teeth,

Begin to fall off

**starts growing .
these teeth are
called milk teeth or
temporary teeth .**

**One - by -one. As
the milk teeth fall
out , a new set of
Teeth starts growing
To take their place.
These teeth are called
Permanent teeth.**

**Home Work
Do it in copy**
