WINTER

Winter season is very cold and chilly season.

Winter starts in the month of October and continues till February and march.

The wind become soft and cool in winter.

In winter season people wear warm clothes and like hot drinks like coffee soup.

In winter season the days become very short and the nights are long.

In some parts of country, during winter season, it happens rainfall and snowfall.

Many people like picnic, adventure and trekking in winter season.

The days become very small in winter, due to which many people could not complete their daily office tasks.

Most of the trees shed their leaves in high snowfall areas.

In some parts of the world, the birds migrate from high cold areas to other low cold area.

H.W Write and remember it
