CLASS – 5

DATE – 15.01.22

SUB- MATHS

C. T – PRAGYA

BASED ON N.C.E.R.T PATTERN

CH – DATA HANDLING

DOUBLE BAR GRAPHS

To compare data we use double BAR GRAPHS.

Anita conduct a survey in her class to find out

Which colors the boys a s girls of her class liked

The most .She recorded the result in a tabular

Form as under :

COLOUR	GIRL	BOYS
BLUE	7	4
PINK	2	8
RED	5	5
YELLOW	3	6
GREEN	6	2

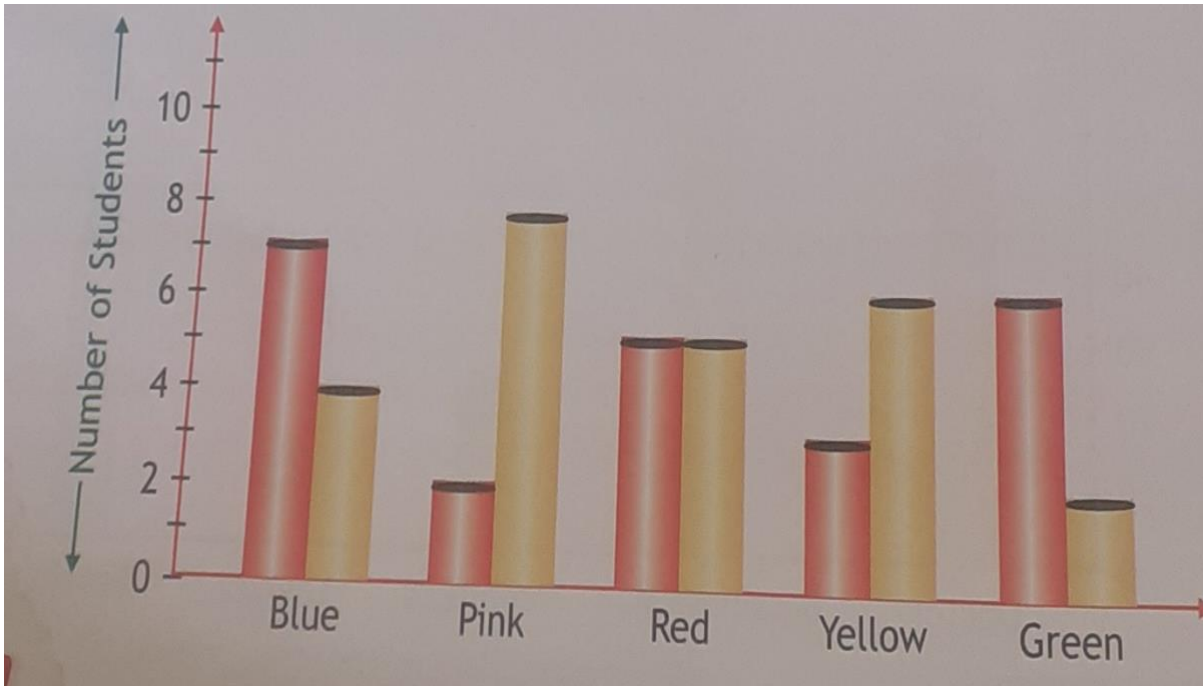

To draw a double bar graph , we follows these

Steps : - 1

Take two axes .

Mark the vertical axes as number of students

Make the horizontal axes as colour .

- Choose an appropriate scale for the vertical Axes . Here you may take  
 $1 \text{ cm} = 2 \text{ student}$  .
- For each colour , draw one graph for boys and For girls . Make a key to show the different Colours used for boys and girls bars.
- Give a title to the graph .

See example of Double bar graph and try to understand and draw in your copy
