Revision

Q1. Find the prime factorisation of the following numbers:

- **96**
- **324**
- **984**
- **84**
- **735**
- **1515**
- **144**
- **1386**
- **3060**
- **625**
- **3600**
- **3690**

Q.Find the HCF of the following using long Division method:

- **92,2760**
- **141,1269,**
- **132,330**
- **148,1268**
- **78,1521**
- **102,748**
- **115,644**
- **105,840**
- **84,288**
- **780,2652**
