Q. Subtract the following integers on the number line.

(1) $4 - 2$

(2) $6 - 8$

(3) $7 - (-5)$

(4) $-1 + 12$

(5) $-9 - (-3)$

Example -

Subtracting Integers

$$-6 - 1 = -7$$

Q. Subtract the following integers using the rules of subtraction.

(1) — 18 from — 10

(2) — 102 from — 125

(3) — 110 from — 95

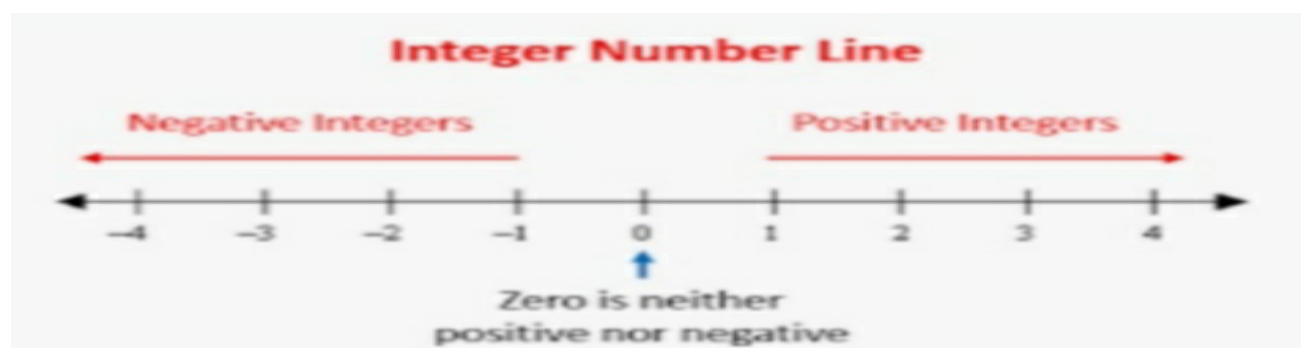

(4) — 725 from 500

(5) 10 from — 158

(6) 25 from 290

Q. What must be subtracted from — 35 to get 18?

Q. What must be subtracted from — 76 to get — 50?
