Chapter. 4

Saving Dory

Read the story

OBJECTIVES

In this chapter, we will:

read an article about marine
Conservation.

learn words related to conservation, make
sentences, and learn about parts of a
dictionary entry

learn the correct use of simple past tense,
adjectives, and apostrophes.

READING

Do you like watching films about animals?
Read an article on how films about
animals affect the environment and
nature.

Do the names Nemo, Dory, Bruce, and
Crush ring a bell? They are all characters
from the 2016 animated film, Finding Dory,
the sequel to the 2003 film, Finding Nemo.

Finding Nemo follows the journey of Marlin, a clownfish, and Dory, a regal blue tang, all the way to Sydney Harbour to rescue Marlin's son, Nemo, who was stolen from his coral reef home to live out his numbered days in the care of a dentist's niece. Finding Dory saw the forgetful blue tang set out on an epic adventure across oceans to find her parents. They are both touching, funny, and inspiring tales that teach us about the beauty of the ocean, its coral reefs, and some of their most attractive inhabitants. People fell in love with the clownfish and the blue regal tang.
