▸ Heating & Magnetic effect of Electric current

- ✧ Electricity has a very important role because it is used to run many electrical appliances like an electric bulb, television, a stereo system, refrigerator, washing machine, computers, etc., and we cannot think our life without making use of electricity.
- ✧ Electricity is produced at power stations from where it is brought to our homes through the thin wire and electric poles networks or underground cables (or wires).
- ✧ Electric current can be defined as of the flow of electricity through a conductor (wires, cables).
