Science

CHAPTER: 6 Structure and functions of cells

Today's Topic: Question and Answers

HOMEWORK (Based on Previous Study Notes)

Now answer the following questions:-

A. Choose the correct answer:

- Which one of the following is a multicellular organism?
(a) Amoeba (b) Paramecium
(c) Bacteria (d) Spider
- The hen's egg is a:
(a) Tissue (b) organ
(c) Cell (d) None of the above
- Which one of these is not present in the animal cell?
(a) Nucleus (b) Cell membrane
(c) Cell wall (d) Cytoplasm
- Cells without well-organised nucleus are called:
(a) Prokaryotic cells (b) Eukaryotic cells

(c) Single cells

(d) Multicellular

5. The unit of inheritance in living organisms is:

(a) Nucleus

(b) chromosomes

(c) Genes

(d) All the above

B. Fill in the blanks:

1. Robert Hooke discovered cells in_____.

2. The egg of a hen represents a single_____.

3. The _____ of the cell has relation with the_____ of the body.

4. A _____ is a group of similar cells performing a specific functions.

5. _____ is the contact centre of the activities of the cell.
