Sub: Uneven roads due to re-carpeting

Sir

Through the column of your esteemed newspaper, I want to draw the attention of the concerned authorities towards the re-Carpeting of roads which leads to unevenness on the roads around various prominent areas. The road re-carpeting has become a death trap for two-wheeler drivers. There is a difference of at least two-inches between the old road and the new layer of the road. Since the Municipal Corporation of Delhi (MCD) had not levelled the two layers, several motorists hit a bump on the road. The work should be done in the manner to ensure that

Our traffic starts moving on re-carpeted road smoothly. I request the MCD to level the roads properly so that the road surface is conducive for driving to curb the road accidents.

Your sincerely

Atul Malhotra
