

VIDYA BHAWAN BALIKA VIDYAPEETH

STUDY MATERIAL SCIENCE

CLASS-VIII

Date : 07-04-2021

Teacher : Poonam Kumari

▸ Crop production and management

Exercise : NCERT

We already know that:

- All living organisms require food.
- The energy from food is utilised by an organism for carrying out its various life processes such as digestion, respiration and excretion.
- Plants can make their food themselves but animals including humans cannot.
- We get our food from plants or animals, or both.

In our country three categories of crops are grown:

- Kharif Crops
- Rabi Crops
- Zaid Crops
