## WRITING An AUTOBIOGRAPHY

An **autobiography** is the life story of a human or non-human entity, written in the first-person narrative.

In case of a non-living thing, we imagine it to be a real person with thoughts and feelings.

**Imagine that you are a toy. Write an autobiography using the following guidelines.**

What are you made of?

Where were you made?

Where were you displayed?

Who purchased you?

How was your owner - kind or cruel?

Did you have more than one owner?

What is your present condition?
