Writing Tweets

Tweets are short messages written online on the social networking site called Twitter.

Keep these points in mind while tweeting

- * Tweets are written in a conversational style.
- * Words as see, look, you, follow, and check out are used quite often.
- * Tweets convey a sense of urgency. They may be brief, but contain the message that needs to be passed.
- * A tweet can have 280 characters generally, except in a few languages.
