Answer:

Hyperinflation is a situation when prices rise phenomenally high. This situation occurred in Germany in 1932 due to following reasons :

- Germany had fought the war largely on loans and had to pay war reparations in gold. This depleted gold reserves at a time resources were scarce.
- In 1923 Germany refused to pay, and the French occupied its leading industrial area, Ruhr, to claim their coal. Germany retaliated with passive resistance and printed paper currency recklessly. With too much printed money in circulation, the value of the German mark fell.

Question 4.

Explain the factors which led to the rise of Hitler in Germany.

Answer:

The factors which led to the rise of Hitler in Germany were :

- Germany was compelled to sign the treaty by which she had to pay a huge war indemnity. This treaty created the feeling of dissatisfaction among the people of Germany. The Weimar Republic was regarded as a symbol of national disgrace. Hitler assured the Germans about the restoration of the old prestige, so they became his followers.
- Germany had to face a Great Economic crisis after the First World War. Many soldiers were no more in service, so they became unemployed. Trade and commerce were ruined. In 1929, there was, however, a great slump in Europe. Germany was in the grip of unemployment and starvation. The prices rose and the value of money fell.
- The Germans had no faith in democracy. It was against their culture and tradition. They, at once, gave support to a strong man of action like Hitler who could turn their dreams into reality.
