Knowledge about the Holocaust

:- information about Nazi atrocities had trickled out of Germany during the last years of the regime. But it was only after the end of the war that the world came to realize the horrors suffered by the Jews and other 'undesirables'. many Jews wrote their memories in diaries and notebooks, and created archives. leadership could see that they were fighting a losing battle, they distributed petrol to its functionaries to destroy all incriminating evidences.

The role of women in Nazi society

:- women did not play an active role in the Nazi society. Hitler believed that a woman's duty was to bear 'racially pure' children and to do her domestic duties. On the other hand, women played good role in the French Revolution. Many women led the suffragette movement to ensure voting rights for women. It can be said that while women played an active role in the French Revolution, they were the passive spectators in the Nazi society.
