

## English Notes

### Class - VII

#### Based on Grammar Book

#### Chapter - 7

#### Topic – Adverbs

**A. Look at the pictures given below and describe the pictures by framing sentences using adverbs of place in your notebook:**

- 1. There is a big school and it is surrounded by the very beautiful garden. The school is very beautiful and a wall clock is hung below the top roof of it. It is all painted with pink colour and the windows are framed with big white glasses. The yellow flowers are beautifully blossomed behind it, in a column. The bushes are grown up at the two sides of the entrance of school premises . There are many children in school, including boys and girls. All the students have tidily worn the school dress. Boys have worn navy blue pants and a tie with sky blue shirt, and girls have put on navy blue skirt and a tie with sky blue shirt. All the children have put on black shoes. Some children are loudly reading their lesson in the class and some are silently reading their book in the library. Some children are making noise in the playground and two children are merrily flying over the sky, sitting in the toy-aeroplane. A boy has just arrived the school and a girl is heavily loaded with the pile of books.*
- 2. A dog is pleasantly flying over the sky, sitting in a parachute. The dog is brown in colour, and looks like a Bulldog. It looks frightened and noisily barking, looking downwards. The parachute is flying above the clouds. The parachute is beautifully designed with different colours and it is big in size. The dog did not find anyone around him to listen his barking, so now he is happily enjoying the flying over the sky and luckily finds him proud to fly over the sky, along with the birds.*
- 3. There is a very big restaurant on the street. The restaurant is fully packed with the crowd of people. All the tables are reserved by the people and waiters are busy in serving food. In the restaurant*

*some people have come with his family and some with their friends to enjoy their meals. The various food items are available in the restaurant and the people are really enjoying their meal. The children are having soft drinks and the ice cream with great pleasure. Some are eagerly placing their orders and some are desperately waiting for their orders. Most of the people are loudly calling the waiters to attend them, since the waiters are too busy at their work.*

**HW- Underline the Adverb of Place in the above Passages.**
