Chapter : 1 Relationship in a family

There are two kinds of families. Some families are small and some are big. Whichever kind of family we have, does not matter, what really matters is the love and care it gives us.

Our family fulfills our basic needs like food, shelter and clothes. It also gives us a lot of love, care and companion. While living together we share our joys and sorrows with our family members. We learn many things from our family such we learn anywhere else. That is why our family is called our first school.

Answer the following questions.

1. Why is our family called our first school?
2. From where do we get our basic needs?
3. What do we share with our family members?
