. 1-- The fun they had

by Issac Asimov

The 9th paragraph tells that when Margie says she wanted to read book with Tommy sc school, Tommy answers nonchalantly that theymay read the book after school.

- Nonchalantly---not showing much interest

an he goes to school whistling, having tucked in the book beneath his arm.

- tuck in---keep in
- Margie goes to the school. The paragraph describes something about Margie's school. The next to her room in her house was her school where the mechanical teacher would always on, except weekend at regular basis of hours at her mother's will as she believes the children could properly learn only at regular time. Now she is in her school before her computer screen along with her mechanical teacher. Her today's subject on screen was Arithmetic and the lesson was Addition of Fraction. She was being asked to input HW into the slot.
