Chapter\_ The Fun They Had by Isaac Asimov

The 1st paragraph tells as follows\_ Margie and Tommy are very much surprised to see the book they found. Margie was so surprised that she jot down in her diary.

On 17th May 2157 she writes a diary about their astonishment\_ Tommy found a real book.

The book was so old that was been yellow and crinkly.

Crinkly-- with many folds or lines.

Obviously on turning the pages everyday till the session is not completed the books will be crinkly

as well as old paper turns yellowish. On seeing the book Margie recalls her grandfather's saying that all the stories that she watches on her computer or television screen used to print on paper during his childhood. Moreover they were surprised to see the words and letters on the book which was stood still\_ not moving because the children had seen only the moving words and letters on their computer and television screen. When they turned the pages the word didn't change and the same words remained still while turning over the pages. So in 1st paragraph Margie writes she is surprised to see motionless words on the book.
