## **SESSION 7: GROUPING OBJECTS**

Grouping can help you want to move, rotate, or resize multiple objects in a presentation. You can group objects such as pictures, clip art, shapes and text box; once grouped they appear as a single object.

In this chapter you will learn to work with grouping and ungrouping of objects

- Open a new file using presentation software and add graphical objects to the presentation based on the guidelines provided earlier.
- ◆ To group the graphical objects, select all the objects that you want to group in the slide.
- To select more than one objects in the slide hold down the ctrl key and select the object in the slide
- To group the objects, Click Format tab.
