**\*Rounding Off Numbers**

Q. Rounding a Number to the Nearest Ten:

**Rule**-To round a number to the nearest 10,we look at the digit at ones place. If it is 0,1,2,or 4,we replace it by 0.If the digit at the ones place is 5 or more than 5,i.e.,5,6,7,8,9,we replace it by 0 and increase the digit in the tens place by 1.

EX- 34 , In 34,the digit at ones place is 4,which is less than 5.

So, we write 0 in its place.

Hence, 34 rounded to the nearest tens is 30

Ex- 748 = 748 rounded to nearest tens is 750.

**Q. Round each of the following to the nearest tens :**

- |         |         |         |         |
|---------|---------|---------|---------|
| (1) 27  | (2) 36  | (3) 69  | (4) 95  |
| (5) 152 | (6) 336 | (7) 809 | (8) 998 |
