My Body

FUNCTIONS OF DIFFERENT PARTS OF THE BODY.

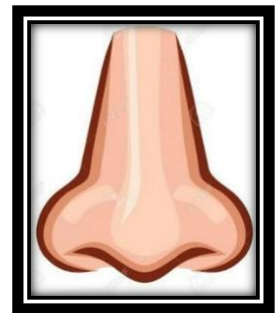

Our ear help us to hear.

We hear different sounds with our ears.

We breathe and smell with our nose.

***We can smell perfumes, flowers, flavours,
and odours with help of nose.***

We use tongue to speak and taste.

***We can taste sweet, sour, bitter and salty
things with our tongue.***

Skin covers the whole body. It is the largest sense organs.

Our skin help us to feel. Our skin can feel smooth, rough, hard, soft, hot and cold things.

These body part our outside and we can see these parts. These are External Organs.
