Ch: MARKET AROUND US

Question 1.

What are different types of shops in the neighbourhood?

Answer:

Weekly markets offer variety of goods. There are other markets also like many shops sell goods and services in the neighbourhood.

- Chemist / physician
- Tailor / dry cleaner / garment shop
- Grocery / departmental store
- Hair Saloon/ florist/ sweet shop

We buy milk, groceries, stationary, eatables, medicines etc. Many of these are permanent. Some of them are roadside hawkers selling vegetables, fruits or flowers.

Question 2.

How are shops in our neighbourhood useful for us?

Answer:

Shops in our neighbourhood are useful for us in many ways.

- They are near our home.
- We can go there on any day of the week and at any time.
- Usually the buyer and seller know each other.
- These shops also provide goods on credit.

Question 3.

Define the term credit.

Answer:

In the neighbourhood markets people purchase goods without paying at that time and the shopkeeper notes it down. People pay at a later date when they have the money. This system is useful for low income group people.

Question 4.

What are the two types of sellers in our neighbourhood?

Answer:

There are different kinds of sellers even in our neighbourhood markets.

- Some of them have permanent shops.
- The others sell their goods on the roadside, as hawkers.
- Some move from one house to another to sell their goods.
- Some make home delivery of goods free of cartage charges.
