Natural Vegetation and Wild Life Class 7 Extra Questions Social Science Geography Chapter 6

NCERT Extra Questions for Class 7 Social Science Geography Chapter 6 Natural Vegetation and Wild Life

Question 1.

Why was Salima excited? Where had she gone during her summer vacation?

Answer:

- Salima was excited about the summer camp.
- She had gone to Manali in Himachal Pradesh alongwith her class friends.

Question 2.

What surprised her during her journey?

Answer:

She was surprised to see the changes in landforms and vegetation. As their bus climbed higher the dense jungles of teak and sal slowly disappeared. Gradually they could see more of coniferous trees with pointed leaves on the hill slopes.

Question 3.

Name the brightest flower on tall trees.

Answer:

Rhododendron is the brightest flower on tall trees at high altitudes.

Question 4.

What do we surmise from Salma's observations?

Answer:

From Salima's observations, we surmise that there is a close relationship between height of land and the types of vegetations.

- With the increase in height climate changes.
- Climate changes natural vegetation.
- The growth of vegetation depends on temperature and moisture.
- It also depends on factors like slope and thickness of soil.

Question 5.

How is natural vegetation classified?

Answer:

Three broad categories of natural vegetation:

- Forests: Grow in regions of high temperature and rain.
- Grasslands: Grow in regions of moderate rainfall.
- Thorny shrubs and scrubs: Grow in dry regions.
